

Sevabrata Foundation

Activity Report: 2019-2024

1. Introduction

Sevabrata Foundation is an apolitical and non-profit social organization conceived by a few like-minded volunteers, who believe in working in the spirit of service as proclaimed by Swami Vivekananda. Sevabrata Foundation was formally registered as an NGO in 2019 with registration under the Indian Companies (Section 8) Act, 2013 (18 of 2013). CIN: U8904KA2019NPL130618 PAN: ABDCS0694P. This report provides an overview of Sevabrata, it's activities and achievements since it's registration till date (2019-2024).

2. About Sevabrata Foundation

"Sevabrata" - Dedicated to serve others. The name and the motto of the organisation is entwined. This apolitical and non-profit social organisation was conceived by a few like-minded volunteers, who believe in working in the spirit of service as proclaimed by Swami Vivekananda. Sevabrata aims to extend a helping hand for all those who look for medical guidance and all the financial assistance, logistics, and psychological support related to it. The success of this, further prompted Sevabrata Foundation to take the initiative of supporting needy students through Sevabrata Academic Support (SAS) program. And these activities inspired us to form an organization to be able to serve all who seek our support in their hours of need.

We understand that there is a huge need for medical assistance in rural areas of our country. Especially for people who are financially strained, getting adequate access to medical facilities is at times difficult, if not impossible. The ignorance of the people also adds to their woes. The key problem areas related to medical ecosystem in our country, particularly in rural areas are:

- The lack of knowledge and guidance.
- Ever-increasing medical cost.
- Financial insolvency.
- Unavailability of critical care in rural areas.

So, since its inception, Sevabrata Foundation is committed to the effort of bridging the gap between poor patients' need for excellent healthcare services with end-to-end guidance, financial and emotional support to needy patients and aid students who are confronted with challenges to continue studies & pursue their academic careers.

Our Mission:

While we understand that we cannot hold every hand in need, but within our possibilities, we have pledged to reach out to people as much as we can. This selfless endeavor to help people particularly in need of medical assistance & academic support is driven by the urge to give back to society in our simple ways. Sevabrata Foundation was born from the conviction that we should aim to address the huge gap between demand versus accessibility to high quality critical medical care for thousands of underprivileged rural and semi-rural families. At Sevabrata, we are a group of people from diverse backgrounds, and from all over the world,

with a single purpose to help bridge affordability gap in the healthcare and education for the poor every step of the way.

Our unyielding faith on Swamiji's ideals of "Service of mankind is service to God" is the mantra behind our mission. We, therefore, make it a point to practice exactly what we believe in so firmly. Key focus areas of Sevabrata Foundation are:

- End-to-End Patient Treatment
- Sevabrata Academic Support
- Arrange Awareness Session

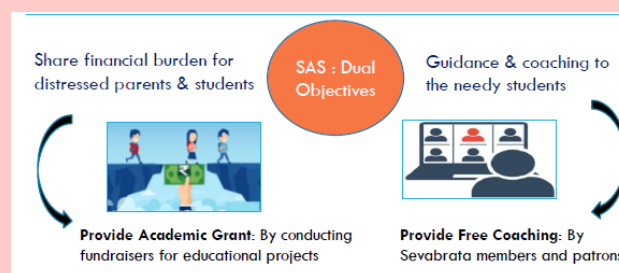

3. Our Activities

End-to-End Patient treatment: Since our inception, we have had the privilege of providing support to several critically ill patients and their families. We firmly believe that we have been blessed by revered Swamiji to have been able to organise much-needed logistical, financial, and medical consultation with leading medical practitioners in Bangalore thus enabling their timely hospitalization. This gives us immense joy that we have been of service to mankind which is our mission. Key activities under End-to-End Patient treatment are:

- Provide timely medical advice to poor and needy families in rural and semi-rural India.
- Help organize funds from our members & broader society to be able to provide the much needed financial assistance to the needy and helpless suffering families.
- Provide logistical support in terms of transportation and temporary accommodation to patient's families during the hospitalization.
- Look after the post-hospitalization financial and wellbeing of the patient.
- Keep regular touchpoints and connects with the patient families lest should there be any further deterioration in the health condition.

Sevabrata Academic Support: Since 2021, Sevabrata Academic Support (SAS) started. Sevabrata Academic Support (SAS) program with dual objectives.

- Share financial burden for distressed parents & students
- Guidance & coaching to the needy students

Arrange awareness session: Sevabrata arranged a number of awareness session on the following areas for the members and some selected forums:

- Medical awareness
- Good living - spiritual
- Good living - physical
- Good living – psychological

4. Summary of Activities during 2019-2024: End-to-End Patient Treatment

4.1 Successful Heart Surgery of Raimoni Sabar [2024]

Raimoni Sabar, a 15-year-old girl from the Scheduled Tribe (ST) community in a remote village of Sushnijobi in the Belpahari block of Jhargram district, West Bengal, was diagnosed with a congenital heart defect known as Pulmonary Atresia with Fallot's Tetralogy. Her condition caused symptoms such as breathlessness and limited mobility, making urgent heart surgery a necessity.

The Sevabrata Foundation, in collaboration with the Mission for Human Excellence (MHE), took the initiative to support Raimoni's surgery and treatment. She successfully underwent biventricular surgery performed by Dr. Devi Shetty, Dr. Sudesh, and their team at Narayana Hrudayalaya in Bangalore and a total of **Rs 2.06L** has been disbursed to date.

Raimoni with parents

4.2 Successful Brain Operation of Milan Jerai [2024]

Milan Jerai, a 45-year-old daily laborer from the Scheduled Tribe (ST) community in Panchtubi village, PS Pingla, West Bengal, was diagnosed with chronic high blood pressure and recently suffered a sudden brain stroke resulting in a brain hemorrhage. Doctors advised an urgent brain surgery as critical for his survival. Initially admitted to Medinipur Medical College, Milan faced delays due to a medical strike and was redirected to Odisha AIIMS. However, with no beds available, he was ultimately admitted to AK Super Specialty Hospital in Cuttack.

On September 21st, Milan was placed in the ICU, and the following day, he underwent a successful emergency brain surgery. Doctors, who initially expressed uncertainty due to the high-risk nature of the procedure, performed two critical surgeries, leading to a remarkable recovery. Milan has since returned home, though he will need to undergo another procedure to restore the bone in his skull, which will entail additional expenses.

The Sevabrata Foundation, in collaboration with Karkai Ramakrishna Vivekananda Seva Pratishtan, has stepped in to support Milan's treatment and recovery. A total of **Rs 2.25L** was disbursed for this life-saving cause.

Milan Jerai

4.3 Supported Tapasi Ganguli for her chronic ailment [2024]

Tapasi Ganguly, a 66-year-old woman from Howrah, West Bengal, has devoted her life to home tuition, earning a modest Rs 1,500 per month. Unmarried and facing significant health challenges, she has recently been diagnosed with severe conditions, including collapsed D7 and D9 vertebral bodies since June 2023, Sjogren's Syndrome, Small Fibre Neuropathy, Degenerative Spine Disease, Osteoporosis, Hypothyroidism, Cholesterol, and Hypertension. These ailments have left her bedridden, with her recovery plan focusing on gradually regaining mobility.

Tapasi's monthly medical expenses amount to approximately Rs 30,000, and she requires sustained support for 7 to 10 months to regain her health and independence. Sevabrata has disbursed **Rs.40K** to cover her hospital and home care medical expenses.

Tapasi Ganguli

4.4 Support for Sipra’s successful Gynie related Laparoscopic Operation [2024]

In September 2021, Sevabrata extended support to Sipra Mondal, a 30-year-old woman from Dasdighi village in the Bankura district of West Bengal, for her hand operation in Bangalore. Coming from an impoverished rural background, Sipra had been battling multiple chronic ailments, including Rheumatic Arthritis, neurological issues, gynecological complications, and orthopedic problems. She successfully underwent a gynecological laparoscopic procedure at Sagar Hospital, Bangalore in early 2024. Sevabrata disbursed **Rs 3.26L** to cover the costs of her operation and associated logistics.

Sipra with her sister when returning back home after successful operation

4.5 Support for Jharna Mandal's successful Gall Bladder Stone Operation [2023]

This update concerns Jharna Mandal, the 52-year-old mother of Sipra Mandal, one of our previous patients. In September 2021, Sevabrata supported Sipra, who comes from a severely underprivileged rural background in Dasdighi village, Bankura district, West Bengal, for her hand operation in Bangalore.

Jharna Mandal had been suffering from a 2.25 cm kidney stone and is also a diabetic. She was admitted to Damodar Health Card in Kotolpura, Bankura, West Bengal. Due to her high blood sugar levels, the kidney stone surgery had to be postponed until her condition could be stabilized.

In December 2022, Jharna endured a serious fall from a height of 10 feet, resulting in fractures in her arms and leg. She underwent surgery for those injuries, but the kidney stone removal was again deferred because of her uncontrolled diabetes.

Recently, Jharna successfully underwent kidney stone surgery at a clinic in Bankura district, West Bengal. Sevabrata disbursed **Rs.46K** for her treatment and recovery.

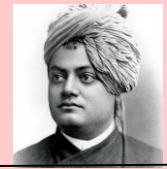

Jharna Mondal after successful operation

4.6 End-to-end support to Palash, a Kidney Transplant Patient [2020 – till date]

Palash, 29-year-old patient from West Bengal, has been undergoing pre-transplant treatment in JIPMER, Puducherry. He was undergoing two dialyses per week at the hospital. He has been staying in a rented house in Puducherry since February 2020.

Palash had a blockage in the urinary tract since he was 10 years old. Almost 6 years back, he underwent small surgery and was advised a Kidney Transplantation in Manipal Hospital, Bangalore. But due to their finances, it was postponed with some medication. Last year, his health deteriorated causing severe breathlessness, weakness, and difficulty in passing urine. It is when the doctors saw no other option than a kidney transplant to save his life. And his mother came forward for the same and decided to donate one of her kidneys to save her son.

The transplantation took place in JIPMER, Puducherry. Palash's kidney transplant operation was successfully performed on 21st Jan 2023. Both Palash and his mother are in a gradual and steady recovery path. For post-operative care, Palash needs to stay in JIPMER till January 2024. After operation we are bearing monthly expenditure of around Rs 25K including rent, medicine and living expenses for him and his parents. We have disbursed **Rs 11.63 Lakh** for dialysis, medicines, operation, post-operation support and logistics. We supported to get a suitable job for him Puducherry.

Palash before operation

Palash along with his mother after successful operation

4.7 End-to-end support to Tara Chetri, a Brain Surgery patient [2023 August - till date]

Sri Tara Chetri, father of our Sevabrata Academic support and free coaching recipient, Shubham, was fighting for his life, where he and his family needed our support & prayers to the extent possible.

Shri Tara Chetri, aged 42 Yrs, a driver by profession, was diagnosed with left Brain Aneurism, a rare medical condition, in which the blood vessel supplying blood to the brain balloons up due to excessive fluid pressure and eventually bursts, thus flooding the brain with blood. In 30% of the cases, this means immediate death, in some cases it brings non responsive cognitive and motor actions, whereas in a small minority, it causes temporary blackout, but not memory loss or cognition abilities. Shri Chetri has luckily been in that last category, however he was undergoing a very critical surgery, so as to prevent a recurrence of the above incident which can be fatal.

The path was long and fraught with numerous dangers. The family is a BPL family with Shri Tara Chetri being their major bread earner. Shri Chetri's wife Smt Purnima Chetri works as domestic help in some houses. Sevabrata volunteers worked intensely with Veidehi Hospital, in Whitefield, Bengaluru, and the family to co-ordinate the entire surgery and recovery process. While some of them opened up their hearth and home to shelter the couple's only son Shubham, some others had been at the hospital with the wife, comforting her, and talking to the doctors to counsel her, some others have taken up the arduous job of getting the insurance approved

for the surgery. The team has **disbursed Rs 50k**, which was used to support the patient with his medical expenses and various other expenses during the recovery period.

Tara Chetri is back home and is recuperating. We are still supporting him with his post operation medical expenses and committed to support him in any contingency. He is on the path to recovery and will hopefully restart his job very soon.

Tara Chetri with family on the eve of discharge from hospital after critical operation

4.8 Support to Prasenjit Pakhira, a kidney transplant patient [2022 - till date]

Prasenjit, 38 years old, comes from an extremely poor rural background of West Bengal. His both kidneys were severely damaged. He needs kidney transplantation and currently undergoes regular kidney dialysis thrice a week. He is a daily laborer. His family's total monthly income is around Rs 1000/- from farming. Sevabrata took up the case to support **Rs 8000/-** per month towards regular expenditure related to dialysis. We started support since 2022 and have been continuing till date. Fund disbursed till date is **Rs 96K**.

Prasenjit Pakhira

4.9 Support to Shipra Mondal, an Ortho/Neuro patient, 30 years old, for successful surgery and treatment [2021-till date]

Shipra Mondal, is 30 years of age and comes from an extremely poor rural background in Dasdighi village of Bankura district of West Bengal. She had been suffering from various chronic ailments, **Rheumatic Arthritis, Neuro and ortho related issues**, etc. Her father is an agriculturalist. She met accident 9 years back. Her left hand was supposed to be operated

to rectify completely. It was not done. Since then she could not use her left hand properly and had regular pain.

Sevabrata considered this case. Shipra visited Bangalore for treatment in September 2021 and she stayed in Bangalore for almost 18 days. She consulted with Rheumatologist, Dr Ramesh Jois, Vikram Hospital and Orthopedic, Dr.Srivatsa Subhramanya, Vasavi Hospital. She underwent a successful hand operation from Dr Srivatsa. Dr Ramesh diagnosed the issue related to Rheumatic Arthritis, prescribed medicine for one month and recommended to get monthly consultation with another doctor (his friend) from Kolkata in the future.

She never thought that deformities in her hand can be rectified as per local doctors' input. Successful operation and treatment in Bangalore gave smile on her face with the hope she will get relief from 9 years' suffering. Today she is on a rapid recovery path.

We have disbursed **Rs 3.26 Lakh** till date.

There is good amount of improvement in her wrist except having mild ache. But, severity of her Arthritis problem has increased with having unbearable pain. She needs to visit Bangalore & Chennai for further consultation with doctors. So, we are launching second phase of campaign soon towards her treatment, ravel & logistics.

Sipra Mondal with her father

4.10 Support to Siddhi Das, a seven-year-old girl, for brain surgeries [2021]

At the beginning of 2021, Sevabrata took up the case of Siddhi Das, a seven-year old child from West Bengal, who was suffering from a brain tumor. She was admitted to Manipal Hospital in the neurological department under the supervision of Dr. Bopanna, after two failed surgeries in Kolkata.

In the due course of five months at Manipal Hospital, Airport Road, she went through four surgeries and had been in hospital for most of the time. She suffered a life-threatening infection when the drainage tube from her brain connecting her stomach was severely infected. Siddhi suffered from a high fever for over a month before recovering after multiple surgeries and prolonged treatment.

Sevabrata had **disbursed 27K** and helped her sail through the ordeal with the support of other NGOs also. Its members also visited them often to keep up their spirits through the trying times.

Siddhi lost her vision but regained her mobility to move independently today. She now stays with her parents in her hometown and awaits further investigation early this year.

We salute the girl's resilience and wish her a happy and healthy life ahead.

Siddhi Das with her mother

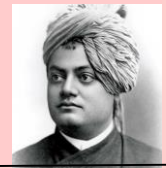

4.11 Provided COVID ERT support remotely during 2nd wave

During the COVID second wave in 2021, we all were going through a testing and difficult time fighting against the pandemic. In many cases, from our experiences, we felt it's really difficult to get help when it is needed the most in an urgency. Keeping that in view, a few enthusiastic volunteers from Sevabrata Foundation and Bangalore Sreehatta Sammelani (BSS) have come together to form an informal group, to support people around these communities in an organized way (remotely). The working areas were broadly classified as patient data collection, hospitalization, ambulance, oxygen, food, medicine & remote consultation, home care, RT-PCR home collection, and psychological support. We supported almost 20 cases around Bangalore and Kolkata.

4.12 Support to Srirup Mukherjee (55 Yrs), suffering from kidney infection, for investigation and treatment [2020]

One of our members Srirup Mukherjee, was diagnosed with critical kidney infection. The ongoing IV injections and other medications were taking a toll on the family since he has been on and off the job, past one year due to COVID situation.

We disbursed **Rs 35K** to the family and also extended counseling support to the family

Srirup Mukherjee

List of other patients supported:

- Manjurani Devi, 55 years old, Cancer, 2020
- Sanjay Hrangkhol, 21 years old, Eye surgery, 2020

5. Summary of Activities during 2019-2023 : Sevabrata Academic Support

5.1 SAS activities in 2024

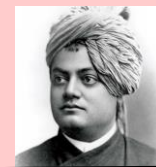

Target fund for SAS for academic year 2024-25 is Rs. 2.71 L. **Amount disbursed in 2024 till date is 2.65L.** Please find details bellow,

Mohit: We are supporting Mohit starting from 2021 when he was in 10th Standard. He is right now pursuing 1st year BCom Degree from SSRMV college in Jayanagara 4th T Block, Bengaluru. His mother was having a shortfall of 20000 out of the total fee of 85000 and Sevabrata has fulfilled this need.

Mallika Samanta: Mallika has been supported from last year and she is now pursuing her 2nd year Engg in CST department of Kolaghat Engineering College and had required Rs 93.8 K as a course fee for this year. Fee of 93,850-00 has been paid for the 2nd year by Sevabrata and is sponsored by two Sevabarata members.

**Anusha:**

Anusha is being supported from her 6th standard and is now studying in 9th standard in Sri Guruji Vidyanikethana. Her mother had the deficit of 15000 to fulfil the total school fee of 26500 and Sevabrata has paid Rs.15000 to support her education. Her fee for this year is sponsored by one of the Sevebrata members.

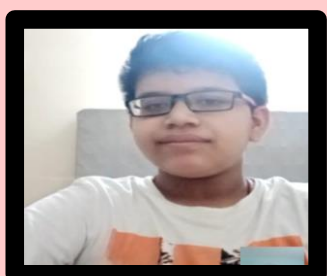

Nandan Raju: Nandan Raju has been supported by Sevabrata from his 7th Standard and is now studying in 9th Standard in Sri Guruji Vidyanikethana. We had deposited 15000 to his school account to support his education for this year as his parents were finding it difficult to fulfil this fee amount out of the total fee of Rs.27500. His fee for this year is sponsored by one of the Sevebrata members.

Yogitha: Yogitha is now in 4th Standard. She is supported by Sevabrata starting from when she was in 2nd Standard. Her parents were finding it difficult to pay the fee of 15000 out of the total fee of 24000. One of the members from Sevebrata has sponsored this child with the needed 15000 Rs.

Tejashwini: She has been supported by Sevabrata from last year for her BCom degree persuasion. She is now in 2nd year BCom and is supported by Sevabrata for Rs.14000 fee payment out of the total fee of 55000, which her mother was finding it difficult to fulfill.

Subham - 15 years old, studying in 9th standard now in Sri Chaithanya Academy. He is supported from the time when he was in 6th Standard by Sevabrata. His parents were finding it difficult to arrange an amount of 30000 out of the total fee of 90000 and Sevabrata's one of the member had sponsored this amount of 30000.

Sevabrata Foundation Activity Report : 2019–2024

Bharath K– Bharath is pursuing his third year BCom from Government First Grade College, No.5, 3rd Main, 7th Cross, RPC, Layout, Vijayanagar. He is supported from his first year BCom by Sevabrata. His mother was helped with Rs 4269 by Sevabrata to fulfil the student's fees.

Abrina Meril Y – Abrina's father was passed away recently and her mother was unable to pay the fee for the school, where Abrina is studying in 6th Standard in BCR Public School in Chikka Begur. Her fee for 6th standard was Rs. 45700 and school had given a discount of 5000. One of the Sevabrata member has sponsored 40700 to pay the school fee of Abrina.

Divya K – Our SAS student Bharath's sister - Divya K had passed 10th standard with securing 72.96% and joined 11th Standard/1st PUC - CEBA course this year in Prajwal Composite PU college, Magadi Road, Bengaluru. Her mother had paid Rs.3000 out of the total fees of Rs.16000 and were looking for help with the rest of the fee payment of Rs.13000. Sevabrata supported this student with paying the fee of Rs.13000.

5.2 SAS activities in 2023

Target fund for SAS for academic year 2023-24 is Rs. 2L. **Amount disbursed in FY2022-23 is 1.83L.** Please find details bellow,

Mohit: A rank holder student of II PU needed Rs.20,000 for his school fees as his mother's income from household work is falling short. We have already deposited Rs 10K.

Mallika Samanta: She lost her ailing father 2 years ago and hails from Sudampur village, Moina of West Bengal and scored 85% in 12th std. Her mother works in a small shop and has sister studying in 5th standard. Mallika has joined Engg in CST department of Kolaghat Engineering College and requires Rs 74.5 K as a course fee for this year. She has been admitted to CST department of Kolaghat Engineering college. Fee of 74,500-00 has been paid for the first semester by Sevabrata and is sponsored by two Sevabarata members.

Anusha:

She loves to study but her mother is having difficulty to meet the expenses. Rs.15,000 needed for her class 8th fees.

Nandan Raju: He is in class 8, but his parents are having trouble paying the school fees. They were asking for support of Rs. 15000.

Yogitha: Life has been unfair on this 3-year old studious girl. Parents don't have steady job, struggling to arrange 12,500 for her school education

For them, fee payment of Rs 42,500 has been completed. They are sponsored by two of Sevabrata members.

Jeevan, Mahesh & Bhuvan lost their father & are on brink of discontinuation of their class 7th and 10th grade studies. They were looking for help of Rs.15,000. We have transferred Rs 15,000. Jeevan has been sponsored by one of Sevabrata member.

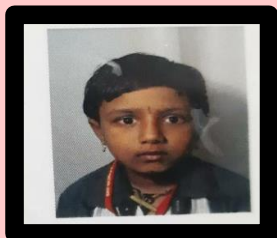

Tejashwini: Her father passed away from cancer a few years ago. Completed the 12th grade with a 92%. Her mother is looking for assistance (Rs 20,000/-) for her graduation. We have transferred Rs 20,000 to her mother account.

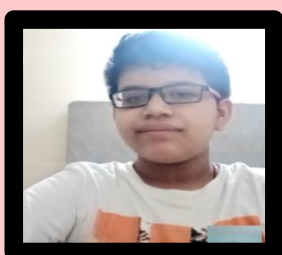

We will be continuing to support Bharath this year. He is pursuing 2nd semester BCA now and will be needing financial support of around Rs 12,000 in the month of Aug/Sep this year.

5.3 SAS activities in 2022

Anusha - 12 years old, studying in 7th standard in Sri Gururji Vidhyanikethan School, Anekal, Bangalore. Her mother is struggling to pay the school fee of Rs 23,000. She is the sole breadwinner of the family. Sevabrata is supporting this student by paying 18000 fee to the school.

Subham - 12 years old, studying in 7th standard in Sri Chaithanya Academy. Both his parents lost their job due to COVID. Earlier, his mother used to work as house-maid and father as a driver. The annual school fee is Rs 71,000. Sevabrata is supporting this student by paying 20000 fee to the school.

Bharath K– 17-year-old was finding it difficult to get into college due to his poor financial background as his father is expired and dependent on mother's grocery shop earnings. Sevabrata supported him with his admission fees of Rs.13633 to get into Government First Grade College, No.5, 3rd Main, 7th Cross, RPC, Layout, Vijayanagar

Nandan Raju K - 12 years old, studying in 7th standard in Sri Gururji Vidhyanikethan School, Anekal, Bangalore. His parents are struggling to pay the school fee of Rs 23,000. Father is a daily wage worker who does the painting and mother is a housewife. Sevabrata is supporting this student by paying 12000 fee to the school.

Yogitha K - 7 years old, studying in 2nd standard in Sri Gururji Vidhyanikethan School, Anekal, Bangalore. His parents are struggling to pay the school fee of Rs 21,500. Father is a daily wage worker who does the painting and mother is a housewife. Sevabrata is supporting this student by paying 12000 fee to the school.

5.4 SAS activities in 2021

We selected three needy students: Mohit, Anusha and Shubham for financial support towards their school tuition fees in 2021. We raised **Rs 57.2K** towards and disbursed **Rs 45k** in the financial year as we committed.

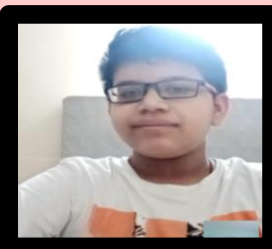

Sevabrata team has started the Free Coaching Program with the pilot of Subham Chetri. He is receiving 5 one-on-one coaching classes per week since 30th August 2021 from our volunteers.

Mohith - 15 years old, was studying in 10th standard in Shreyas public school, JP Nagar, Bangalore. His family was struggling to pay the school fee of Rs 29,000/- as his father was passed away due to COVID. His father was working in a book store and was on regular dialysis. Mohith's mother is the sole breadwinner of the family and was looking for assistance in the tuition fee.

Anusha - 11 years old, was studying in 6th standard in Sri Guruji Vidhyanikethan School, Anekal, Bangalore. Her mother was struggling to pay the school fee of Rs 20,000. She is the sole breadwinner of the family.

Subham - 11 years old, was studying in 6th standard in Narayana eTechno School, Marathalli. Both his parents were lost their job due to COVID. Earlier, his mother used to work as house-maid and father as a driver. The annual school fee is Rs 72,000 and school authorities have agreed to give some discount. They managed to arrange most of the remaining amount including support from VYM Bangalore, but was still short of another Rs 10,000.

5.5 Teacher Volunteers

Following teacher Volunteers have been providing fee coaching to Shubham from August 2021.
Science Teacher: Banani Sarkhel (Nag), BSc Hons in chemistry, WB Govt sponsored PTT pass, experiences: WB Govt primary school teacher.

Math Teacher: Bhaskar Pal, PhD (IIT, Kharagpur), Experiences: Wendt India Limited, ICFAI, Bangalore, Dayananda Sagar Institution, Bangalore, Symbiosis University of Applied Sciences, Indore, Presidency University Bangalore.

English Teacher: Jayasree Chakraborty, BSc, BEd, Experiences: Army Public school, Vibgyor International School, Ryan International School, Bangalore.

English Teacher: Kakali Roychowdhury, MA/B.Ed, Having 7 years of teaching experience in various schools, is certified psychology counselor, certified graphologist and pranic healer.

6. Summary of Activities during 2019-2024 : Arrange Awareness Session

6.1 Hosted Webinar with Ishita Datta [2021]

As a part of COVID ERT initiative, we organized an interactive session on **“Managing psychological state in the difficult time”** with one of the experienced professionals in this field, Smt. Ishita Datta on 27th May. Smt. Ishita Datta is having more than 27 years of experience as a psychological counselor and hypnotherapist. She is a Trainer of Transactional Analysis (TA) and certified hypnotherapist from the USA, currently associated with Reach Clinic - Bangalore, and Docvita, a platform for practitioners. Almost 35 members attended this great virtual session.

6.2 Hosted Webinar with Swami Sarvapriyananda [2020]

We, at Sevabrata Foundation, were privileged to host this webinar on **“Role of Spirituality in a busy life”** with Revered Swami Sarvapriyananda, Minister-in-charge and head of Vedanta Society of New York, and a renowned motivational speaker of the Vedanta. More than 100 people attended the session and was broadcasted live on our YouTube channel. This was a memorable event of one and half hours with Maharaj ji. Here is the link to the session on our [Sevabrata](https://youtu.be/VApC981COn0) YouTube Channel:

<https://youtu.be/VApC981COn0>

7. Financial Summary

7.1 Financial Statement of all Financial Years

Financial Year	Income (In Lakh)	Expense (In Lakh)	Balance (In Lakh)
FY2020-21	₹ 4.51	₹ 1.33	₹ 3.18
FY2021-22	₹ 5.02	₹ 4.97	₹ 0.05
FY2022-23	₹ 6.43	₹ 9.28	₹ -2.85
FY2023-24	₹ 8.24	₹ 7.33	₹ 0.91
FY2024-25	₹ 7.26	₹ 7.88	₹ -0.62
Grand Total	₹ 31.46	₹ 30.79	₹ 0.67

- Facebook Page: <https://www.facebook.com/SevabrataFoundation>
- YouTube Channel: [Sevabrata Foundation](#)
- Email: sevabratafoundation@gmail.com

10. Conclusion

Our contribution was significant, but may not be sufficient. Although we completed more than five years since the registration of Sevabrata Foundation, we need to do more and improve as an organization in coming days. Support from all corners is solicited to flourish the idea and see a full grown organization within the next few years. Most of us probably experienced the spirit through instances of service on individual level. “Sevabrata” is a unique platform to execute service in an organized manner to implement the philosophy of “**Be good and do Good**”. May Swamiji bless us and help us to keep up our constant inspiration, sincerity and hard-work and we also need support, love and blessing from all!

Appendix - A: Activities before Sevabrata Registration

Activities started since 2014 in personal level and that helped to bring spirited volunteers together to form a registered organization Sevabrata in 2019. Here are few examples.

Poltu Bera's heart transplantation:

In mid-2014, Sevabrata had received a patient from a village in rural Bengal. His name was Poltu Bera. Poltu had been suffering from a critical heart ailment that needed nothing less than heart transplantation. For Sevabrata, it was a daunting task. But with the blessings of the Almighty and unrelenting of our members on the wee hours of 1st Jan 2015, Poltu went through a successful heart transplantation in BGS Global Hospital, Bangalore, under the able guidance of Dr. Anand Subramaniam. It gives us immense pleasure to let everyone know that we could arrange a fund of fifteen lakhs, which also included his rehabilitation and post-operative care. It's been four years since, and Poltu is doing fine. He stays in Bangalore now, with his wife and two children.

Poltu Bera with his wife

Prakash, a child with heart ailment:

This is a sad story of Prakash, who at the age of 3 had a fatal brain stroke. Even though he survived, he is left with a damaged heart, which affected his life. Prakash who was 16 years old, used to move around feeling suffocated and unable to do his daily work. His family struggles to take care of him. Prakash could not walk at a stretch more than 15 minutes. Due to this, he stopped study after class 5th standard. Prakash underwent successfully with a heart surgery known as T.O.F. (Tetralogy of Fallot). We could raise INR 2.5 Lakhs. Today patient is completely healthy and started his schooling.

Guddi Devi with heart ailment:

Srimati Guddi Devi, a 37 year old housewife from a rural village in Kashmir, was diagnosed with a heart disease some years ago and was advised of a critical heart operation and related treatment. She underwent a surgery in a private hospital in Jammu. This case was actively taken care of by the volunteers in Sevabrata. The family of Guddi Devi was monetarily and emotionally supported in all possible ways. However, despite all the efforts, Guddi Devi succumbed to some post-operative complications.

List of other patients supported:

- Ananda Bhunia, 23 years old, Orthopedic, 2016
- Bijali Mondal, 40 years old, Heart surgery, 2018
- Ahalladi Bibi, 42 years old, Breast tumor, 2018
